With version 11.0 of the XBMC Media Center, developers have enabled content discovery on the Pi through CMAK, an OpenXBMC add-on. While we had previously explored CMAK in the past, I'm taking a different look and providing my personal perspective of the add-on, along with a detailed review of its features. CMAK provides a simple interface with a focus on privacy, so you will not need to be an XBMC developer to use it. The system-wide availability of content from your public library is one of the key features of CMAK. Unfortunately, it is not yet possible to make your own content available in your XBMC media library. * Find the latest changelog for CMAK. Install OpenXBMC: The instructions are for the Raspbian operating system which uses the XBMC media player. Download and install using these steps: a) Plug in the Raspbian Pi on to your computer. b) Copy the.zip file onto a USB drive and extract the.rpi and.img files to the root directory of the drive. c) Boot the Raspberry Pi from the.img file with the command. d) Once the Pi boots into the console, type the following and hit enter: `sudo apt-get update sudo apt-get upgrade sudo apt-get install -y xbmc sudo shutdown -h now` Once complete, start XBMC using the command. `xbmc` You can now browse the contents of your Pi with CMAK. How to Find CMAK Add-ons When you start your XBMC Media Center, you will see the selection panel in the upper right. Click the add button and select the "Add add-on from ZIP" option. The add
